Technical Details

Color	Green/Blue/Red
Item Weight	244.66 Kg
Package Dimensions	100.6 x 60.4 x 79.2 cm
Primary material	Plastic, Steel
Capacity	Standard

- Wheelie bins prices vary slightly from manufacturer to manufacturer. There is not a great deal of difference in cost between retailers, so a standard 240 liter wheelie bin should cost included to India mainland. As the bins are quite large the delivery cost is quite high and most bin sellers absorb this into the price of their bins.
- If you are looking for more then one bin that is where savings can be made as the cost per bin can drop.
- If you are buying more then one bin it's a good idea to see if there are any discounts available.

Color	Min Price	Max Price
Blue	Rs 95	Rs 1629
Green	Rs 120	Rs 3800
Red	Rs 320	Rs 2250

Green Dustbin:

- For Kitchen Waste.
- Will be picked up by garbage.
- Will be turned into compost.

Blue Dustbins:

- For dry waste like paper and plastic.
- Will be picked up by garbage man twice a week.
- Will be recycled. (Do not fit the bins with plastic bags before use)

Red Dustbins:

- For diapers, sanitary napkins etc.
- Will be picked up by garbage man as and when generated.
- Will be sold door-to-door at nominal rates by self-help groups.

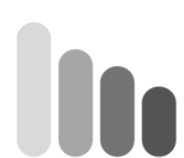

- Garbage, though unseen, can have real impacts on the environment when it is not properly disposed of.
- Chemicals contaminating soil. When waste ends up at the landfill, chemicals in the trash can leech out into the soil, contaminating it.
- Surface water. Chemicals don't just run from garbage into the soil.
- Air pollution.

- A waste container is a container for temporarily storing waste, and is usually made out of metal or plastic.
- a lot of attention is paid to the furniture pieces, furnishings, color palette, et cetera and there is one item that is often neglected in nearly every single corner – DUSTBIN.
- Bathroom dustbin - small, simple, and preferably covered. The material of the dustbin should be able to withstand humidity and water splashes.
- For the office area or the living room, dustbins have come a long way. All sorts of modern materials are being used to produce dustbins for the living room and the office as the trash in these rooms is low.
- Outdoor dustbin is usually used to throw dry leaves, trimmed branches, dust, et cetera.

- Manufacturer of a wide range of products which include plastic recycle dustbin, 45 liter plastic dustbin, industrial plastic dustbin, 10 foot operated dustbin, 15 foot operated dustbin and 25 road side single dustbins.
- We are recognized as the prominent manufacturer and supplier of a wide collection of 45 liter Plastic Dustbin. Moreover, offered dustbin used in various places and is manufactured using superior grade raw materials and cutting – Edge Technology. To meet the set industry quality standard, offered dustbin is tested by our experts on pre-defined quality parameters. Clients can avail this dustbin from us at lucrative rates.

770	137	137	78	12-15	47kg
1100	131.5	137.2	105.5	18-22	58kg

- With a wide range of bins to choose from it can be a confusing time. Before you take the plunge and go ahead and make a purchase there are a few things to take into consideration before you go ahead and get a new bin. If your council only collects every 4 weeks you will need a bigger bin then if your council collects every week.
